

EXPERIMENT: 11
EMBEDDED C PROGRAM TO DISPLAY “HELLO WORLD”
MESSAGE

CODE:

```
#include <reg51.h>
```

```
#include <stdio.h>
```

```
void main(void)
```

```
{
```

```
    SCON = 0x50;    // UART Mode 1, 8-bit UART, Enable Receiver
```

```
    TMOD = 0x20;    // Timer1 Mode2 (8-bit auto reload)
```

```
    TH1 = 0xFD;    // 9600 baud rate for 11.0592 MHz crystal
```

```
    TR1 = 1;        // Start Timer1
```

```
    TI = 1;         // Set TI to send first character
```

```
    while(1)
```

```
    {
```

```
        printf("Hello World!\n");
```

```
    }
```

```
}
```
